Art Unit: 2816

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A consists of claim 1, figure 1.

Species B consists of claim 2, figure 2.

Species C consists of claims 3-4, figure 3.

Species D consists of claims 5-10, figure 5.

Species E consists of claims 11-12, figure 11.

Species F consists of claim 13, figure 13.

Species G consists of claim 14, figure 14.

Species H consists of claims 15-16, 20 and 22, figure 16.

Species I consists of claims 17-19 and 21, figure 17.

Species J consists of claims 23-25, figure 19.

Species K consists of claims 26-27, figure 20.

Species L consists of claims 28-29, figure 21.

Species M consists of claims 30-34 and 36, figure 24.

Species N consists of claims 35 and 40, figure 27.

Species O consists of claims 37 and 39, figure 26.

Species P consists of claim 38, figure 25.

Species Q consists of claims 41-42, figure 28.

Species R consists of claim 43, figure 30.

Art Unit: 2816

Species S consists of claims 44-45, figure 36.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: None, there is no generic claim.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: none of the species listed above have common special features from each other.

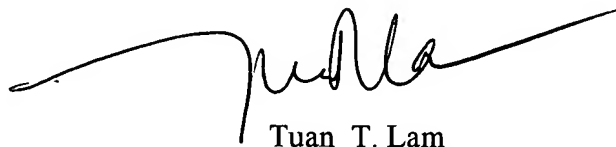

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
